Annual Descriptive Price List
To Our Customers and Friends

Following the plan which we adopted the past Spring, we have cut down the cost of our catalogue and passed this saving along to you and are handing you herewith our Annual Descriptive Price List, which we hope you will find of interest. We believe that you will find the prices well in line, with a reduction in most all lines, at the same time, there has been no reduction or change in the quality of the plants which we offer in this list.

Our descriptions will be found accurate and while brief, we hope that they will serve as a guide to prospective buyers, and that they will be of assistance in making up your orders.

Our collection of varieties embraces all of the sorts which experience has taught us are most desirable for planting in this section.

We sincerely request that you read our Terms and Conditions. It is necessary that we have an established policy and plan for handling or conducting our business. The section entitled Terms and Conditions sets forth plainly our methods of doing business and all orders are accepted by us on the Terms and Conditions as stated below. Errors will occasionally occur, but by careful, personal supervision we have reduced them to a minimum. Should an error occur in the handling of your order, we stand ready to do all in our power to rectify it.

TERMS and CONDITIONS
How to Send Order

If shipment is desired by Parcel Post, be sure to include enough money in your remittance to cover postage charges; the differences, if any, will be refunded promptly.

TERMS are cash in every case, although we will ship C. O. D. when 25 per cent of the amount is sent with order.

REMITTANCES should be made by Bank Draft, Postal or Express Money Order, but we will accept personal checks where it is impossible for you to secure Postal, Express or Bank Draft.

SELECTION OF VARIETIES. We can sometimes help in selection of varieties, and a great many customers prefer to leave the selection with us. We will be glad to give you the benefit of our experience and judgment in making up the assortment.

SUBSTITUTION. Please state on the order, in the proper space, whether or not we shall substitute in case we are out of any of the varieties wanted, otherwise orders will be shipped short.

SHIPPMENTS of nursery stock will travel best by express, and we recommend this plan wherever possible. However, we hope that all of our customers will state how they prefer shipments to move, whether freight, express or parcel post.

CLAIMS will not be entertained unless made promptly upon receipt of goods; we shall be glad to investigate any claim, provided it is made as soon as the stock is received.

GUARANTEE. We guarantee to deliver all trees and plants to the forwarding company in perfect condition, but do not guarantee that all of the stock will live, as too much depends on the treatment the stock receives after it leaves our hands.

NON-WARRANTY. We give no warranty, expressed or implied, as to the description, quality, productiveness or any other matter of any trees, plants or bulbs we send out, and will not in any way be responsible for the crop. We do, however, agree to replace free of charge or refund the purchase price of any trees, plants or bulbs that prove untrue to name, but we will not be responsible for a larger amount and all sales are made with this understanding.

ANNUAL DESCRIPTIVE PRICE LIST

Huntsville, Alabama

APPLES

We are offering only those varieties of proven merit and best adapted for planting in the South. Our list of standard sorts is arranged in the order of ripening to assist in making selections to cover the season, and we have added to this list two Crab Apples which we think most suitable for general planting.

DELICIOUS PEACHES

In making up the list of varieties we have been very careful to select only the best varieties for its season, and we unhesitatingly recommend all of the varieties listed for home orchard planting. For commercial planting the best varieties are: Early Rose, Carman, Hiley, Yellow Hiley, Belle of Georgia, Elberta and J. H. Hale, which ripen in the order in which they are named.

SELECTED PEARS

With the exception of Kieffer and Pineapple we do not recommend the planting of Pears in a commercial way. Both of these varieties are reasonably blight resistant. Pineapple, which is the most blight resistant of all Pears, is particularly well adapted for planting in the lower South. In this latitude Kieffer does wonderfully well and while somewhat affected by blight, it can be depended upon to produce good crops of handsome fruit.

HICKS. Most popular of all. Fruit black, sweet and well flavored.

FIGS

Figs are not entirely hardy, therefore we do not recommend their planting in the North. They can be grown successfully in northern Alabama if planted in a sheltered position, but further South may be grown in the open. Occasionally the trees may be killed to the ground by severe freezes, but if the dead wood is cut away, leaving the roots undisturbed, they will come out again and produce fruit the first season thereafter.

BROWN TURKEY. Fruit medium to large, pear-shaped. Skin coppery brown.

CELESTIAL. Small, violet colored. Fine flavor. Sweet.

QUINCE

Undoubtedly the Quince is the pearl of all fruit for preserving purposes, possessing a flavor which is quite distinct and pleasing.

ORANGE. Most popular. Fruit large, bright yellow with excellent flavor.

APRICOTS

One of the most delicious of all fruits, but due to the fact that late freezes catch the Apricot trees in bloom, causing a crop failure, we do not recommend planting large quantities of Apricots, but, by all means, there should be a few trees included in every home orchard.

ROYAL. Fruit medium to large size. Yellow with orange cheek.

CHERRIES

Cherries cannot be classified as a commercial orchard fruit in the South, but by all means there should be a few trees in every home orchard. The Sour Cherries are much heavier croppers than the Sweet, therefore we recommend that you plant more heavily of the Sour.

EARY GOLDEN. Small, pale orange. Flesh yellow. Sweet and juicy.

RIPENS LATE. Dessert variety. Ripe late May.

LARGE MONTMORENCY (Sour). Larger than early Richmond and ripens about ten days later. Bright red.

EARLY RICHMOND (Sour). Medium size, blight resistant. Ripens late May.

PINEAPPLE. Practically blight proof. Very desirable.

Early Richmond Cherries
NECTARINES

The Nectarine requires the same soil and cultural methods as does the Peach. Trees resemble the Peach both in foliage and habit of growth. Fruit is much smaller than the Peach, but of same shape and does not have the Peach fuzz.

**PRICES OF NECTARINE TREES**

4 to 5 feet, 50c each; $3.50 per 10.
3 to 4 feet, 50c each; $2.50 per 10; $20.00 per 100.
BOSTON, Bright yellow with red check; flesh yellow and sweet.
RED ROMAN. Greenish yellow with brownish red check. Flesh golden.

PLUMS

The Japanese varieties are more at home in the South than any other type, and we recommend that they be planted in preference to any other type. The Shropshire Damson and Wild Goose are not Japanese varieties, but they are highly desirable for their preserving qualities and should not be overlooked in any planting.

**PRICES OF PLUM TREES**

4 to 5 feet, 40c each; $3.75 per 15.
3 to 4 feet, 50c each; $1.75 per 10; $15.00 per 100.
WILD GOOSE (Native). Medium sized fruit, bright red and richly acid. Ripens before the Japanese varieties.
ABUNDANCE (Japanese). Large, amber color changing to red.
BURBANK (Japanese). Fruit large. Skin deep red showing yellow around.
SHROPSHIRE DAMSON. Well known. Purple skin, amber flesh.
COMPASS CHERRY PLUM. Fruit small, bright red. Excellent for canning.

JAPANESE PERSIMMONS

In the Japanese Persimmon we have a combination of beautiful foliage together with handsome fruit. The fruit is many times larger than the native Persimmon.

**PRICES OF PERSIMMON TREES**

3 to 4 feet, 75c each; $6.00 per 10.
2 to 3 feet, 50c each; $2.50 per 10.
TANE NASHI. Most desirable. Fruit large, light yellow changing to red. Seedless.

RHUBARB

Rhubarb or Pie Plant. Comes early in the Spring and is used for stewing and pie-making. Very healthful.

**PRICES OF RHUBARB**

Strong, two-year, 25c each; $1.50 per 10.
LINDENAU. From our medium sized, tender stalks.

GRAPE

Where space is limited and soil not the best, grapes will give better results than any other fruit and, of course, good soil and plenty of room will improve both yield and quality. Grape vines should be thinned out during the second month, December and January being the best time.

**PRICES OF GRAPE TREES**

Two-year, 25c each; $1.75 per 10; $15.00 per 100.
CONCORD. Berry large, blue-black in color. Very productive.
DELAWARE. Berry small, red. Very fine flavor.
DIAMOND. Berry greenish white borne in large, compact bunches. Ripens two weeks ahead of Concord.
MOORE'S EARLY. Extra early, black grape.
NIAGARA. Large, white. Fruit tender, skin tough.
LUTTIE. Fruit large, dark red. Very sweet.

SCUPPERNONG or MUSCADINE GRAPE

These vines are long lived and do wonderfully well all over the South. Excellent for jelly, grape juice and wine-making.

**PRICES OF SCUPPERNONG GRAPE TREES**

Two-year, 40c each; $2.50 per 10; $20.00 per 100.
SCUPPERNONG. Berries medium to large. Russet-brown. Sweet.
JAMES. Large, black fruit borne in clusters of ten to twelve berries.
THOMAS. Small sized clusters of dark red fruit. Excellent flavor.

BERRY PLANTS

No home orchard planting is complete without a small planting of the following berries, also profitable as commercial plantings.

BLACKBERRY

**PRICES OF BLACKBERRY PLANTS**

EARLY HARVEST. Extra early. Medium sized berries of good quality.
ELDRADO. Large, sparkling black fruit. Very sweet.

RASPBERRY

**PRICES OF RASPBERRY PLANTS**

ST. REGIS. Medium sized fruit, bright red.
CUTHERB. Large berry, red, firm and juicy.
CUMBERLAND. Large, firm, oval-shaped berry. The best of the black varieties.

BLUEBERRIES

**PRICES OF BLUEBERRY PLANTS**

Prices: 75c each; $6.00 per 10.

FRUIT bluish black with small seed, excellent flavor. Requires sour or acid soil. Plants bear young and the fruit ripens during the months of June, July and August. Unexcelled in pastry or as fresh fruit, and our variety, which is the genuine Rehoboth, will command good prices on the market.

DEWBNERRY

**PRICES OF DEWBNERRY TREES**

Prices: $1.00 per 10; $7.50 per 100.

AUSTIN. Large, black berries. Very sweet.
LUCRETTIA. Large size, well flavored. Prolific bearer.

STRAWBERRY

**PRICES OF STRAWBERRY TREES**

Prices: $1.00 per 10; $4.50 per 50; $8.00 per 100.

LADY THOMPSON. Medium to large, pinkish-red. Early.
KLONDIKE. Medium size, dark red. Mid-season. SENATOR RUNEF. Medium to large size, dark red, top-shaped. Mid-season.
AROMA. Large size, dark red. Ripens late.

PECANS

**PRICES OF PECAN TREES**

4 to 5 feet, 90c each; $5.00 per 10; $60.00 per 100.
2 to 3 feet, 50c each; $3.00 per 10; $30.00 per 100.
FROTSCHER. Medium to large sized nuts. Plump rich meat.
SHLEY. Medium to large size. Nuts long, thin-shelled. Well flavored.
STUART. Large size, thin-shelled. Widely planted.
SUCCESSION. Similar to Stuart but larger. Nuts thin-shelled, full meated.

WALNUT

**PRICES OF WALNUT TREES**

Prices: 2 to 3 feet, 80c each; $4.00 per 10.

ENGLISH WALNUT. Nuts of good size, thin-shelled with rich kernels.

CHESTNUT

**PRICES OF CHESTNUT TREES**

Prices: 2 to 3 feet, 90c each; $5.00 per 10.

AMERICAN SWEET. Native tree valuable for its sweet nuts.

ASPARAGUS

Once established a planting of Asparagus lasts for many years.

**PRICES OF ASPARAGUS PLANTS**

Prices: $1.00 per 5; $8.00 per 100.

CONOVERS COLOURED. Standard variety. Large, clear white stalks.
